Complete Dietary Services

We offer a complete package of Dietary Services from Food Production and Service to Nutritional Assessments and MDS/RAI/Careplan input. All aspects of Dietary Operations are completely integrated with each other to ensure that the Clinical Operations reflect exactly what the Food Service Operations are doing. This allows for very detailed and effective nutritional support for residents at risk for weight loss, skin break-

down and other manifestations of malnutrition. We offer a great deal of clinical support to your nursing staff in the form of detailed rosters, summary reports and tickler files for scheduling and monitoring recommendations and interventions. This support translates to a more accurate and timely MDS/RAI/Careplan process from a nutritional standpoint. In fact, our software has the capability of storing and analyzing MDS transmission files which allows for real time, in house, monitoring and analysis of MDS information.

Menu Management

Our menu management software offers the most dynamic and comprehensive menu services in the industry. We will customize your menu to your resident population and constantly update the menu according to the wishes and desires of your residents.

	Regular/NAS*	Mechanical Soft	Pureed	SELECTED CONC SWEETS	Bland/Soft	Liberal Res

SELECT MENUS OR TRAY CARDS OR BOTH

Our tray card software comes complete with diet icons, color coding, and alert mechanisms that make your staff completely aware of the needs of your residents from fifty feet away. We take pictures of your residents and put their picture on their menus, nourishment labels and placemats. We even print a picture album of your residents and an aid to resident identification for new employees.

Our tray card program allows you to pick and choose or mix and match which residents receive select menus or tray cards.

Quality Food and Service at Low Cost

Quality at low cost? How do we do it? We do it with experience and through the use of the Active Price Control System. This in house developed and designed system allows us to work with food vendors on a very detailed basis and ensures that we get the highest quality ingredients at the lowest industry cost. Therefore, we can pass this on to you in the form of a guaranteed operating cost that is below industry standards and worry free. It's guaranteed!
